

The graphic has to fit within a circle on the golf balls.

I'll wait to change the colors until we know which ball and how many colors.

I skewed the 2 and th to the left because the ball is.

I need to modify the tail that hangs outside the circle just for the golf balls.

Option 1

Let the circle cut the end of the tail off.

Option 2

Bring the point of the tail inside the circle.

Option 3
Smaller logo
to fit inside the circle.

**use
this one**
